The YMCA, proudly supports youth through community programs and services in Moose Jaw.

As our communities emerge and recover from the societal changes and impacts of the pandemic, it became clear that the need for mental health programming and supports are urgently required by the communities we proudly serve.

The YMCA responded to these critical needs through intentional programming as well as ensuring access to our centres of community regardless of individual circumstance and financial ability.

A small sample of these programs include:

- Y Mind - *Supports youth and teens, who are experiencing symptoms of mild-to-moderate anxiety or similar feelings.*

- HOMEBASE Moose Jaw - *An Integrated Youth Services (IYS) mode that suppors youth aged 12-25 in reaching their full potential by offering rapid access to wualkity, evidence-based, integrated, culturally safe and youth-targeted services and supports focusing on prevention and early intervention.*

- Shared Services Mentorship - *Youth who demonstrate behavour, emotional or social struggles are referred to this program. Mentors work with at-risk youth to enhance their self-esteem, self-regulation, and resiliency skills.*

- Steps for Success - *As a support to students, who are temporarily excluded from school, this program utilizes a proactive approach for students to grow and learn together and implement plans for future success.*

All funds raised from the FunSpiel will support YMCA programming in Moose Jaw.
